- **Testing & Deployment**
Testing, bug fixing, deployment & documentation.

Project Description

The project involves the development of **Society Karbhar**, a web-based society management system aimed at digitizing housing society operations such as member management, maintenance billing, notices, and complaint handling. The objective of the project is to create a secure, user-friendly, and efficient platform using **HTML, CSS, JavaScript, React, Node.js, Express, and MySQL/MongoDB**. The expected outcome is a fully functional application that reduces manual work, improves transparency, and enhances communication within societies. The intern will gain hands-on experience and practical exposure aligned with industry requirements.

Role of Intern

- Understanding project requirements
- Assisting in execution of assigned modules
- Data collection, analysis, or development work (as applicable)
- Preparing reports and documentation
- Following instructions and guidelines provided by the mentor.

Mentor Details

- **Name:** Mohit Pote
- **Position:** Lead Developer
- **Email ID:** potemohit08@gmail.com
- **Contact Number:** 8010707638
- **LinkedIn Profile:** www.linkedin.com/in/mohitpote08

Training & Bond Agreement

- After successful completion of the **six** months internship and training period, and based on satisfactory performance, you will be required to continue employment under a mandatory **twelve** months bond.
- During this period, the company will provide **structured training, mentorship, and hands-on project exposure**.
- During both the training period and the post-training bond period, you are **not permitted to resign or discontinue** your services.
- In the event of early resignation, you will be required to **pay compensation towards training and related costs**, as per company policies.
- You must maintain **strict confidentiality** regarding company data, projects, processes, and client information during and after your association with the company.

Confirmation & Future Opportunities

On successful completion of the bond period and based on performance, you may be considered for a permanent position or role enhancement.

We look forward to welcoming you to **VR Data Solution** and wish you a rewarding learning experience with us.
